Highlights of the N.C. Public School Budget	
Funding public education in North Carolina is a complex and integrated process. This booklet presents charts and tables which describe how state and federal funds are distributed to North Carolina's Public Schools. It also reviews the changes in average daily membership (ADM), school personnel, and the effect of charter schools.	
The State funds schools with the following types of allotments.	Quick Facts
Position Allotments: The State allots educator positions to a local school district for a specific purpose. The local school system pays the educator according to the State salary schedule without being restricted to a specific dollar amount. Each district's average salary will reflect the average experience and education in their district. Examples of position allotments are: - Teachers - School Building Administration	Students:Allotted 2022-231,548,758Number of Schools 2022-2023:LEAs2,484Charter206Regional1Lab School9

Allotted Average Daily Membership 2003-04 to 2022-23

Note: Decrease in 2009-10 Average Daily Membership is due to the change in the Kindergarten age cut off. Starting in 2009-10, students may not be enrolled in a NC public school unless they are 5 years of age on or before August 31st, previously October 16th. This represented a decrease in Kindergarten of 13,490.

Note: "Charter and Other" include Lab schools and the innovative school district. ISD closed June 30, 2022.

Average Daily Membership for each school month is based on the sum of the days in membership for all students in individual LEAs, divided by the number of days in the school month. To be included in ADM, a student must have a class schedule that is at least 1/2 of the school's instructional day.

Allotted Average Daily Membership (ADM) represents the budgeted ADM and may vary from the actual ADM for the fiscal year.

For LEAs the allotted ADM is the higher of:

- (a) Actual ADM from the prior year, or
- (b) Projected ADM of the current year.

Position/MOE Allotments

See page 1 of this document for a description of each type of funding

65.16 % of the State funds are allocated as guaranteed certified positions.

Therefore, a LEA receives a position (or month of employment) and the state pays for the salary and benefits for the position, regardless of where the individual falls on a salary schedule.

Therefore, a state paid teacher with 5 yrs experience has the same budget impact to a LEA as a state paid teacher with 25 yrs experience, they both = 1 position.

Difficulties in Comparing Dollars per ADM

- Huge variance in the size of LEAs. ADM ranges from systems with an ADM of 471 to an ADM of 160,899.
- Certain fixed costs in LEAs such central office operations
- Less experienced teachers versus veteran teachers (experience levels)
- Fixed Salary Schedules

Teacher Comparison

- Ex: Teacher in Wake with 5 years experience, versus Hyde with 20 years experience.
 - Cost per ADM for Hyde is greater.
 - Both schools have a teacher.

Low Wealth Supplemental Funding FY 2022-23 Counties

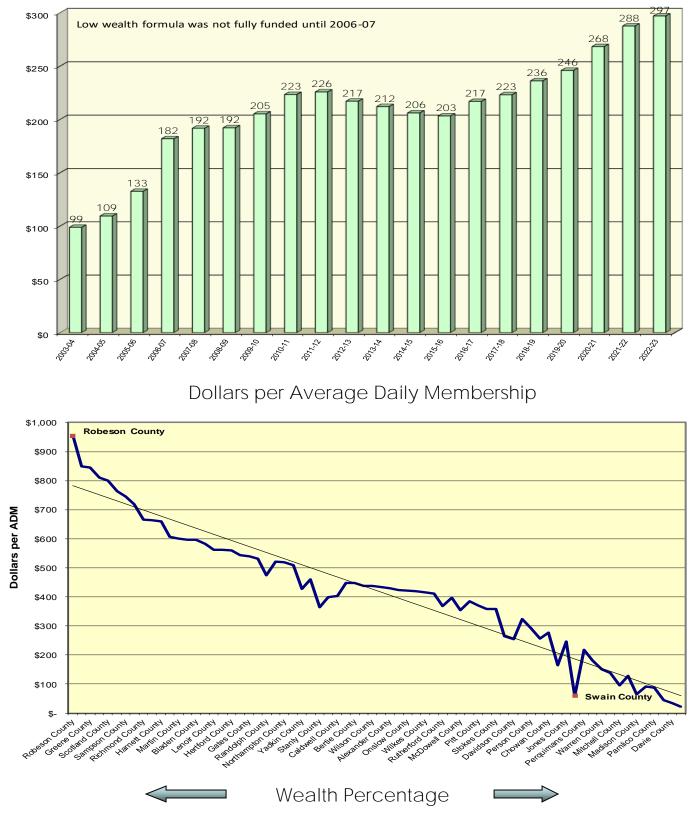

Percentages represent the percent of the State average (100% = State average). Ineligible counties are those above the State average and are shown in white.

North Carolina provides supplemental funding to systems whose ability to generate local revenue per student is below the state average. Some of the factors used to determine eligibility are county adjusted property tax base, square miles in the county, and per capita income. There are 70 "Low Wealth" counties (78 LEAs) in 2022-23.

Counties containing a base of the Armed Forces of the United States that have an average daily membership of more than 17,000 students shall not receive less supplemental low-wealth funding than the LEA received in the 2012-13 fiscal year. Onslow, Cumberland and Wayne counties meet the eligibility for consideration of this provision.

Low Wealth Supplemental Funding Total State Funding

In Millions

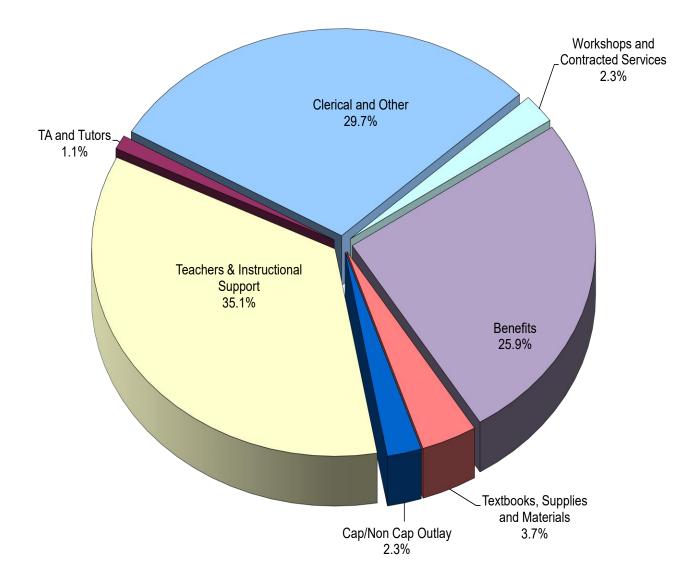

Note: The low dollars per ADM for Swain County is a result of the county's low "effort". Swain County's effective tax rate was below the State average effective tax rate and Swain County's local appropriation per student was 23.6% of what the county could contribute based on the county's wealth and an average state effort, therefore; Swain County was eligible for 23.6% of their appropriation (based on funds available).

Small County Supplemental Funding FY 2022-23 Counties

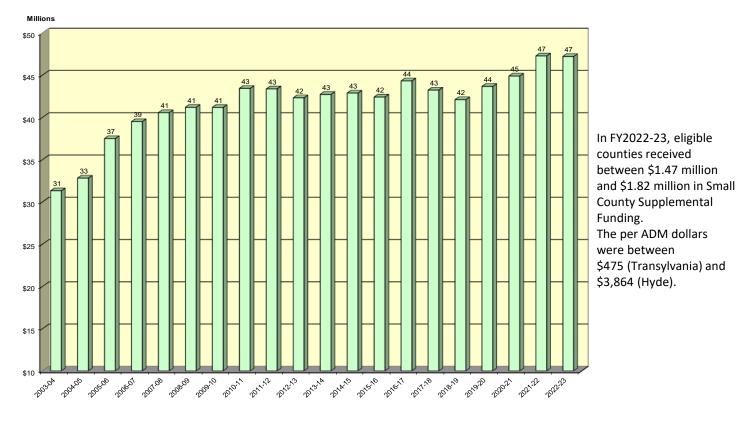

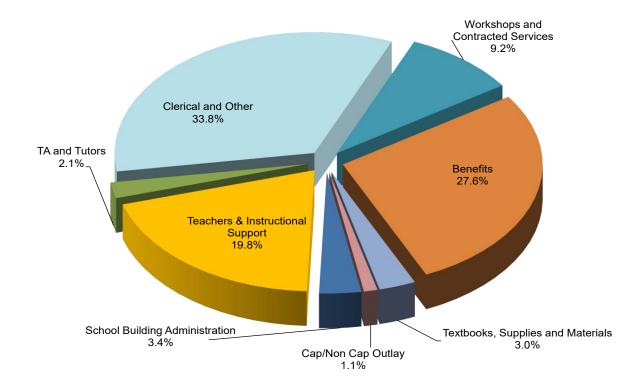

North Carolina provides supplemental funding to those county school district with average daily membership (ADM) less than 3,300. City School Districts are not eligible for this funding. If a school district becomes ineligible due to an ADM greater than 3,300, the funding will be phased out over 4 years.

In 2022-23, 29 county school districts were eligible for funding.

Charter Schools 1997-2023

The General Assembly passed legislation in 1996 which created Charter Schools in North Carolina. A Charter School is a public school operated as a semi-autonomous school of choice, operating under a charter with the State Board of Education. The final approval on all charters is granted by the State Board of Education. Charter Schools are designed to give significant autonomy to individual schools and in turn to hold these schools accountable for results.

For 2022-23, North Carolina has 206 operating Charter Schools. Senate Bill 8 (2011) removed the cap of 100 Charter Schools. Charter Schools receive State funding based on the average per pupil allocation of the local education agency in which the school is located.

Charter School Expenditures

FY 2021-22

State funds are allotted based on the number of students in ADM at the Charter School. State funds may be used for any purpose other than purchasing a building.

Most federal funds are targeted towards a specific population such as Low Income Children or Handicapped Children. The graphs include covid funds.

Local funds are given to Charter Schools based on the local current expense appropriation in the county in which the student resides. Local funds may be used for any purpose.

State Funding for Capital

Historically, the state of North Carolina has provided funding for salaries and operations to the local school systems and the local units have been responsible for providing facilities. The state had a School Facilities Appropriation in 1949 and has passed state school bonds in 1949, 1953, 1963, 1973, and 1996. Currently, North Carolina provides school construction aid to LEAs through the following programs:

Public School Building Capital Fund: Comprised of the ADM portion and the Lottery portion

(ADM Fund + Lottery Fund) 1987-present – The ADM Fund uses part of the corporate income tax revenues to provide counties with an allotment based on average daily membership. LEAs may let their allotments accrue until they are ready to use them for a specific project, at which time they must match (1:3) the amount from the state. The fund was frozen by the Legislature for 2002-03 because of state budget shortfalls. Tax revenue was diverted away from the ADM Fund for the third and fourth quarters of FY 2008-09. More than \$1.2 Billion was allotted to the ADM Fund from 1987 through 2009. Since then, no additional corporate tax revenue has been allotted to the ADM Fund. The NC Education Lottery become an additional revenue source for the PSBCF in 2006, and the sole revenue source in 2009. More than \$1.8 Billion has been allotted to the Lottery Fund since FY 2006-07, bringing the total funding to present for the PSBCF to more than \$3 Billion.

2. The Education Lottery. Lottery sales began in March of 2006. General Assembly made the following allocation of money raised by the lottery in FY 20: \$385.9 million to noninstructional support personnel; \$100 million for the Public School Building Capital Fund which provides monies to North Carolina counties to build and repair schools; \$73.2 million to the Needs-Based Public School Capital Fund, which provides financial assistance to low-wealth counties to build new schools; \$78.2 million, to the N.C. Pre-K program to fund seats in the prekindergarten program forat-risk four-year-olds; \$30.4 million, for N.C. Education Lottery Scholarships which are awarded based on financial need to students attending a state university or community college; \$10.7 million, to the UNC Need-Based Grant program, which provides financial aid based on need to students attending one of the 16 UNC system institutions; \$21.4 million for LEA Transportation for the state's school systems. The State Lottery Act directs the lottery to increase and maximize the available revenues for education purposes. In the 2020-21 fiscal year, a breakdown of revenues showed 64.6% went to prizes, 24.6% for education programs, 6.9% in retailer commissions, and the remaining 3.9% to administrative expenses.

2005-06 2006-07 2007-08 2008-09 2009-10 2010-11 2011-12 2012-13 2013-14 2014-15 2015-16 2016-17 2017-18 2018-19 2019-20 2020-21 2021-22

Grants, awarded under the Needs-Based Public School Capital Fund, represent the largest annual allocation under the program, created by the General Assembly in 2017 from state lottery revenues. The grants are in addition to the state's lottery-supported Public School Building Capital Fund, from which all districts receive an allocation each year. Over the last five years, the Needs Based Public School Capital Fund has awarded a total of \$739 million dollars to local school districts, providing funding for 60 new K-12 construction projects, including 33 new schools, eight new buildings, and the replacement of 44 existing schools.

The needs-based grant applications are based on priorities provided in the law, including ability to generate revenue, high debt-to-tax revenue ratio, and the extent to which a project will address critical deficiencies in adequately serving the current and future student population. Awards are capped at maximums of \$30 million for a new elementary school, \$40 million for a middle school and \$50 million for a new high school.

Local Option Sales Tax

In addition to direct state aid, the state earmarks sales tax revenues for facilities improvements. State law allows counties to levy two one-half cent additions to the state sales tax (1983, 1986), 30 percent and 60 percent respectively goes to schools (all 100 counties levy the tax). The revenues are distributed to counties on a per capita basis and may be used for public school capital outlay or to retire indebtedness incurred by the county for these purposes. In many cases, this has allowed counties to fund local bond issues without raising property taxes. Recent legislation allows counties to levy either an additional one-quarter cent sales tax, <u>or</u> a Land Transfer Tax. There is no state capital funding for charter school facilities.

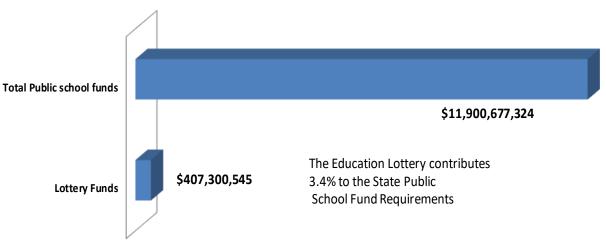

Federal Funding

There is no recurring federal funding for public school facilities. Federal funds have included FEMA emergency relief (hurricane) funds. A federal program that has provided school renovation funds is:

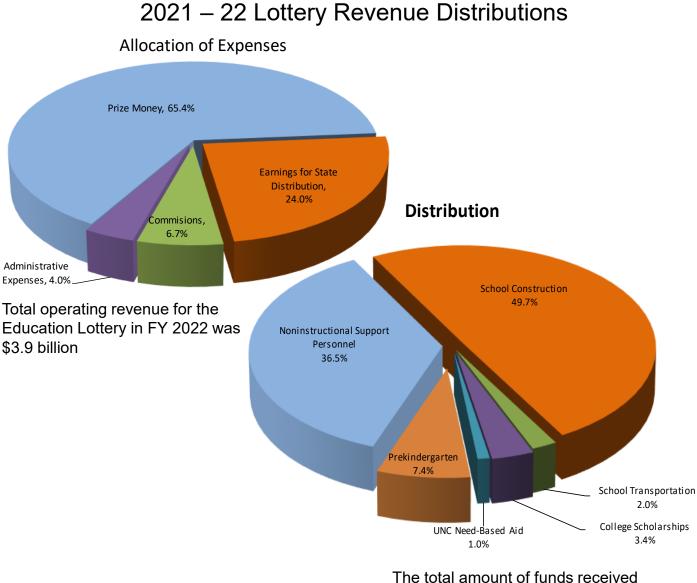

Qualified Zone Academy Bonds (QZABs) – a zero-interest bond program (IRS code) that requires a 10% match from a local business partner. QZABs authority issued to North Carolina

Funding from the Lottery

In 2021-22, lottery funds funding public schools supported transportation and non instructional support position allocations.

The total amount of funds received from the NC Education Lottery in FY 2022 was \$1,057.4 million.

North Carolina School Connectivity Initiative

Established in 2007, the North Carolina School Connectivity Initiative (SCI)¹ ensures all North Carolina Public School Units (PSUs) have equitable access to secure and reliable high-speed Internet access sufficient to meet their instructional and professional needs. Its mission is to maximize the state and local use of the Federal E-rate program² to obtain the greatest discounts or reimbursements, establish common shared services that leverage economies of scale, establish Cooperative Purchasing Agreements to leverage group purchasing, enable the greatest amount of local control in PSU technology decisions, and to administer the program in an effective and efficient manner.

The General Assembly appropriates \$35M annually for this initiative, which is leveraged through state contracts and the federal E-rate program, to deliver \$117M in value to NC public schools in 2021. Each dollar of state funding spent on E-rate eligible goods and services delivers \$3.32 in value. As a result, every North Carolina public school classroom has wireless access through fiber-based broadband Internet that is secured through firewall and content-filtering services.

(all values in millions, rounded)	Total Cost	E-rate Portion	State Portion
School Fiber Connections (WAN)	\$29.40	\$22.40	\$7.00
